

# PRI NETWORKING HOUR

Bimonthly seminars hosted by the MSU Plant Resilience Institute

## “From Concept to Conclusion: Research Results Showcase With the PRI Seed Grant Awardees of Cohort 2”

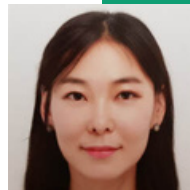

**Thursday,  
October 9<sup>th</sup>  
\*12:00–2:00pm**

\*Please note the start time of this event is one hour earlier than normal.

**PBL Room 168  
Or Zoom**

**Pizza and drinks  
provided! Please  
register in advance.**

**Register to attend:  
[bit.ly/prioct9](https://bit.ly/prioct9)**

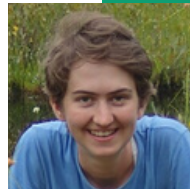

### Hui-Kyong Cho

“Unravelling the genetic basis of plant adaptation to hypoxia”

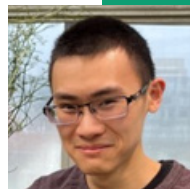

### Shannon Donnelly

“Investigating the role(s) of plastoglobules in jasmonic acid biosynthesis and herbivore defense”

### Sylvie Martin-Eberhardt

“A transgenic ecological approach to understanding anthocyanin function in a plant defense trait”

### Daniel Mok

“Establishing the carnivorous genus *Pinguicula* (Lentibulariaceae) as a novel model system of plant resilience research”

### Mohammad Mostofa

“Genetic manipulation of isoprene synthase to improve soybean resilience to climate change”

### Tri Tran

“Investigating the impact of the biological product on the interaction between soybean and the root-associated microbial community in the presence of drought stress”
