

Below is a list of BMB department equipment. Shared equipment will be accessible 24 hours per day to authorized users. For access, please contact the name listed. User must sign in to the paper or electronic sign-in sheets. All maintenance will be paid for by the department, but users must supply individual consumable items or accessories. Users are responsible for proper disposal of any waste.

Room	Equipment	Contact
2	-80 ultralow freezer	see label
201	lyophilizer (LabConco)	Mariel Cruz
213	rotary evaporator	Thilani Anthony
223	fluorescence spectrophotometer	Susanne Hoffmann-Benning
224	nanodrop spectrophotometer	John LaPres
224	plate reader (Molecular Devices)	John LaPres
224	gel imager (Azure 200) <i>ethidium bromide use</i>	John LaPres
310	RC5B centrifuge	Jian Liu
310	ultracentrifuge (Beckman Optima L-90K)	Jian Liu
316	autoclaves	see label
322	scintillation counter	Jon Kaguni
301	nanodrop spectrophotometer	Rob Last
401	digital sonifier (Branson)	Min-Hao Kuo
401	nanodrop spectrophotometer	Min-Hao Kuo
407	film developer	see label
409	qPCR (Applied Biosystems QuantStudio 3)	Stacy Hovde
410	Roche Lightcycler 96 system and robot	see label
410	ultracentrifuge (Beckman L-80XP)	Kroos
417	X-ray source	Erik Martinez-Hackert
418	gel imager (Azure Sapphire) <i>no ethidium bromide use</i>	Erik Martinez-Hackert
418	autoclaves	see label
422	gel doc (Bio-Rad ChemiDoc)	Lee Kroos
418	platform shaker at 37C	Lee Kroos
418	platform shaker at 32C	Lee Kroos
518	autoclaves	see label
BPS	CD spectrophotometer (Jasco J-815)	Lisa Lapidus

Effective August 1, 2021
