

Assistant Professor, Department of Biochemistry at Stanford

We seek individuals with an extraordinary record of scientific accomplishment and creativity working in any area of biochemistry, biophysics or molecular biology research, broadly defined. As a basic science department within the School of Medicine, we encourage applications focused on the molecular basis of human health and disease as well as those focused on fundamental mechanisms of life. The Department of Biochemistry is active in the teaching of graduate and medical students and includes a highly diverse set of ongoing research programs with this focus. The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.

Interested candidates should send a single pdf including a copy of their Curriculum vitae, a description of research accomplishments and future plans, and contact information for three references to:

Online: <https://biochemistry.stanford.edu/faculty-application>

Mail: Department of Biochemistry
279 Campus Drive
Beckman Center B400
Stanford, CA 94305-5307

*Applications should be received by **December 1, 2018**.

With best regards,

Pehr A. B. Harbury
Associate Professor of Biochemistry
